

PROGLOVE

MARK Pro multi range - wearable barcode scanner

Work without interruptions

MARK Pro combines premium wearable scanning with intelligent workflow control and connected services to keep workers productive and operations running at peak performance.

20%

higher productivity

88%

lighter than the legacy
handheld scanner

33%

fewer errors

2×

faster exception
handling

01 Inbound decanting & receiving

Carton-to-tote handling stays continuous because the scanner is already worn on the hand.

02 Pick & stow

One device for all scanning distances across shelves, totes, and pallets.

ONE DEVICE,
MIXED DISTANCES

03 Packing & returns

Configurable controls allow for categorization and labeling of packed and returned goods.

LESS
BACK-AND-FORTH

04 Vehicle-based workflows

Scan at longer distances without leaving forklifts or carts.

REACH FARTHER WITHOUT
SWITCHING TOOLS

BUILT
